

17720 SERIES HIGH THROUGHPUT WEIGHING SYSTEM

M720 SERIES HEINESSIM

Developed from a highly successful packing system the Walthambury 720 Series of High Throughput Weighers incorporate reliable and proven features giving the most cost effective performance for a machine with throughputs of up to 720 25kg bags per hour.

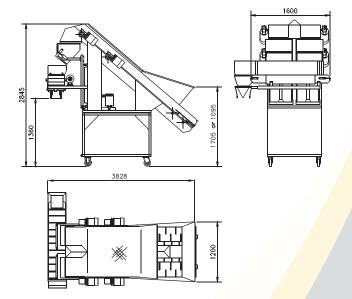

- Bags and weighs up to 720 bags per hour of potatoes, carrots, root crops, pellet feeds and processed vegetables
- Dual independent weighing mechanisms and PLC control for increased reliability and output speed.
- Offers complete protection, all contact parts are rubber lined.
- PTFE liners for reduced build of up detritus in weigh bins.
- Compatible with automatic sack placing, conveying and sealing system from the Morray range.

Optional Extras

- ☐ Stainless steel, food quality construction.
- Modifications to allow for use in various weight ranges between 5-25kg.
- Extended rear elevators for reduced infeed height.
- Reversible cross conveyor to allow filling at either end into bags, trays, boxes etc.
- M730 high accuracy version with unique jog fill system.
- ☐ Enlarged weigh hopper for weighments up to 50kg.
- ☐ Touchsceen control for increased usability

After Sales Service

Fast on site service by factory trained engineers coupled with extensive stocks of competitively priced spare parts guarantees maximum productivity and protects the customer's investment.

TECHNICAL SPECIFICATIONS

Throughput

Up to 720 bags per hour (depending on produce and bag size)

Weight Range

20kg to 25kg as standard (5kg to 50kg optional).

Air Requirements

A cool dry air supply, 5.5bar (5cfm/142 ltr/min @ 80psi)

Electrical Requirement

440VAC 3 phase
