

WALTHAMBURY®

M220/18

M220/18

The Walthambury M220/18 bagging unit is fitted with an 18 degree elevator that makes it ideal for peat, compost, animal feeds, top soil, aggregates, sand and other bulky or free flowing granular materials.

Also the M220/18 has a sealed chevron style belt, spring balance scale, manual sack clamp and is belt driven by suitably sized motor and gear box.

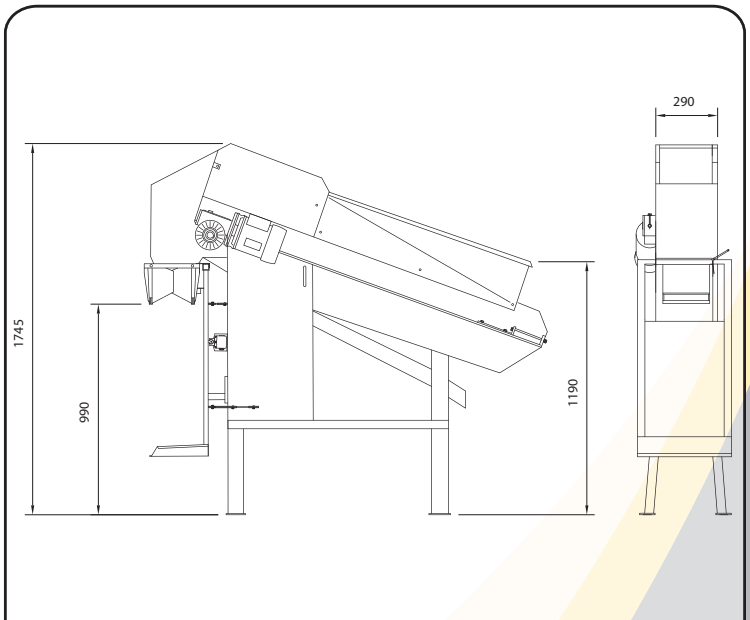

These features make the M220/18 perfect for low throughput bagging operations with its simple, reliable operation.

The M220/18 is suitable for paper, plastic, hessian and jute bags.

- Single belt feed - available with sealed elevator for granular and fibrous materials
- Light-weight chassis allowing for a mobile weighing and bagging platform.
- Up to 220 bags per hour
- Minimum IP44 rating
- Chevron or plain style belt

Optional Extras

- Stainless steel construction for food quality
- Sealed belt for dusty materials.
